

GROWELL

... 解决您的头发问题

What is Growell?

Growell is a topical solution (i.e. for external application) containing **minoxidil**, which is an **established medical ingredient** for the treatment for common hair loss.

How do I use it?

Growell is **to be applied** on the affected area(s) of the scalp **twice a day**, in the morning and in the evening. One bottle (60ml) is just nice for one month's use (2mL per day). It comes with a pump spray and an extended spray tip to suit your needs.

What strength should I use?

All strengths can be used safely in men and women between 18 to 65 years old. **Growell 5% and Growell 3% solutions are for initial treatment** in men and women, respectively. For some patients, after the condition is stabilised, they can switch to **Growell 3% or 2% solution for maintenance**. In general, Growell 5% tends to give faster results.

How long will it take before I can see any effects?

It generally takes **at least 4 months** for you to notice the effects of Growell. If you do not see any effects after 6 months, it probably will not work for you. Unsuccessful treatments can be caused by a number of factors. Consult your doctor or pharmacist.

Can I perm or colour my hair while using Growell?

Yes, you can. However, you should **stop using Growell for 24 hours** before the hair treatment.

Any side effects?

The most common side effects of Growell are skin reactions like **scaling, dry skin and burning sensation**. These side effects are transient and should disappear as treatment progresses. However, if they become bothersome, please consult your doctor or pharmacist.

An **effective** and **economical solution** to treat hereditary hair loss in men and women is now available from your pharmacist!

Benefits of Growell:

- It helps to **rejuvenate your hair follicles** and stimulate hair growth.
- It helps to **maintain new hair** and stop additional hair loss.
- It is **easy to use** in the **privacy** of your home.
- It is **compatible** with hair colouring and perming.

什么是 Growell?

它是一种外用的生发剂。它的有效成分 minoxidil 是医学界被研究和肯定的防止脱发及生发素，能有效解决遗传性脱发问题。

如何使用?

将 Growell 涂在头发稀疏或光秃的部位，每天需涂抹两次（早晚各一次）。60ml 瓶装足够使用一个月（一天只需 2ml）。

我应该选择哪一种浓度?

全部浓度皆安全适合 18 岁至 65 岁的男女使用。Growell 5% 及 3% 分别适用于男性及女性的初期使用者。对于一些使用者，在情况稳定后，可以转换为 Growell 3% 或 2% 来维持效果。大体上，Growell 5% 的效果最为迅速。

使用多久才能看到效果?

至少在 4 个月之后就能看到效果。在首 6 个月之后如不见效，那就不适合您使用了。治疗效果不佳，可以是受多种因素影响。请向您的医生或药剂师询问。

使用 Growell 的同时，是否能进行烫发或染发?

当然可以。只要提前 24 小时停止使用 Growell 即可。

有没有副作用?

普遍的副作用包括皮肤的过敏反应，例如头皮呈鳞状，头皮干燥、发热的感觉。这些副作用都是短暂的，会随疗程逐渐消失。但如果副作用持续或变严重，请向医生或药剂师询问。

Growell 能有效、经济的解决

遗传性脱发难题，男女皆适用。

各大药房及药局均有出售。
